

How long will my pumpkin last?

Pumpkins are like any fresh vegetable: sooner or later they go off. Most last 3-4 weeks. Some for months. Some just a few days. There's **no** guarantee they will last to Halloween.

To give your pumpkin the best chance of lasting:

- ✓ Choose a firm pumpkin with no soft spots.
- ✓ Do **not** carve it early. They last 2-3 days once carved.
- ✓ Clean off any mud then dry it well.
- ✓ Store in a cool, dark, frost-free place (e.g. a garage)

Unfortunately we cannot offer refunds on pumpkins that rot after leaving the farm.
