

# How long will my pumpkin last?

- 🍂 Like any fresh vegetable, sooner or later pumpkins will go off.
- 🍂 **Most last 2-3 weeks. Some last 2-3 months. A few last 2-3 days.**
- 🍂 There's **no** guarantee they will last to a certain date, e.g. Halloween, unless you choose it just a couple of days beforehand.

## To give your pumpkin the best chance of lasting:

- ✓ Choose a firm pumpkin with no soft spots.
- ✓ Consider a **white, green or 'warty' pumpkin or any squash**: they often keep much longer than regular orange pumpkins.
- ✓ Remove any mud, dry it out & store in a cool, dark place.
- ✓ Do **not** carve it early. They last just a few days once carved.

**Regrettably, we can't offer refunds on pumpkins that go off after leaving the farm.**
